	Application No.	Applicant(s)			
Office Action Summany	10/677,980	MAYER ET AL.			
Office Action Summary	Examiner	Art Unit			
The MAU INC DATE of this communication com	Padmavathi v. Baskar	1645			
The MAILING DATE of this communication app Period for Reply	ears on the cover sheet with the c	orrespondence address			
A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION. - Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication. - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication. - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).					
Status					
1) Responsive to communication(s) filed on	_•				
2a) ☐ This action is FINAL . 2b) ☑ This	☐ This action is FINAL . 2b) ☐ This action is non-final.				
3) Since this application is in condition for allowance except for formal matters, prosecution as to the merits is					
closed in accordance with the practice under E	x parte Quayle, 1935 C.D. 11, 45	53 O.G. 213.			
Disposition of Claims					
4) ☐ Claim(s) 1-23 is/are pending in the application. 4a) Of the above claim(s) is/are withdray 5) ☐ Claim(s) is/are allowed. 6) ☐ Claim(s) is/are rejected. 7) ☐ Claim(s) is/are objected to. 8) ☐ Claim(s) 1-23 are subject to restriction and/or expressions.	vn from consideration.				
Application Papers					
9) The specification is objected to by the Examine 10) The drawing(s) filed on is/are: a) access applicant may not request that any objection to the conference of the conference of the original access and the conference of the conference of the original access and the conference of the confere	epted or b) objected to by the lidrawing(s) be held in abeyance. See on is required if the drawing(s) is object.	e 37 CFR 1.85(a). jected to. See 37 CFR 1.121(d).			
Priority under 35 U.S.C. § 119					
 12) Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f). a) All b) Some * c) None of: 1. Certified copies of the priority documents have been received. 2. Certified copies of the priority documents have been received in Application No 3. Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)). * See the attached detailed Office action for a list of the certified copies not received. 					
Attachment(s) 1) Notice of References Cited (PTO-892) 2) Notice of Draftsperson's Patent Drawing Review (PTO-948) 3) Information Disclosure Statement(s) (PTO-1449 or PTO/SB/08) Paper No(s)/Mail Date	4) Interview Summary Paper No(s)/Mail Da 5) Notice of Informal P 6) Other:				

Election/Restriction

1. Restriction to one of the following groups of invention is required under 35 U.S.C. 121:

- Claims 1-10 and 20-21drawn to a vaccine composition comprising polypeptide and a method of vaccinating a human against plasmodium infection classified in class 424 subclass 184.1
- II. Claims 11-20 and 22 drawn to a vaccine composition comprising_polynucleotide and a method of vaccinating human with said polynucleotide classified in class 514, subclass 44
- III. Claim 23 drawn to a method of vaccinating human with antibodies to ligand specific for binding BAEBL polypeptide classified in class 424, subclass 130.1
- 2. The inventions are distinct, each from the other because of the following reasons:

Group I is directed to a vaccine composition comprising polypeptide BAEBL (i.e., amino acids) or a portion comprising BAEBL region II or polypeptide portion comprising consecutive 6-584 amino acids or polypeptide SEQ.ID.NO: 2 or polypeptide encoded by SEQ.ID.NO: 1 Group II is drawn to a DNA vaccine composition comprising polynucleotide BAEBL or a portion comprising polynucleotide encoding BAEBL region II or portion of nucleic acid encoding consecutive 6-584 amino acids or polynucleic acid encoding SEQ.ID.NO: 2 or polynucleic acid SEQ.ID.NO: 1. Thus these products are different to each other structurally, biochemically and functionally and are drawn to patentably distinct inventions as indicated above and polynucleic acid encoding said polypeptide which have materially different, structural, physical and chemical properties as represented by their divergent classes.

Group III is drawn to a method of vaccinating human using ligand specific antibodies that bind to BAEBL polypeptides as discussed above.

Application/Control Number: 10/677,980

Art Unit: 1645

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their separate classification and their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Page 3

- 4. Should applicant traverse on the ground that the inventions are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.
- 5. Applicant is advised that the response to this requirement to be complete must include an election of the invention (with one SEQ.ID.NO) to be examined even though the requirement be traversed (37 CFR 1.143).
- 6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Conclusion

7. Papers related to this application may be submitted to Group 1600, AU 1645 by facsimile transmission. Papers should be transmitted via the PTO Fax Center, which receives transmissions 24 hours a day and 7 days a week. The transmission of such papers by facsimile must conform to the notice published in the Official Gazette, 1096 OG 30, November 15, 1989. The Right Fax number is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PMR) system. Status information for published applications

Application/Control Number: 10/677,980

Art Unit: 1645

may be obtained from either Private PAIR or Public PAIR. Status information for unpublished

applications is available through Private PAIR only. For more information about the PMR

system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private

PMR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).

Any inquiry concerning this communication or earlier communications from the Examiner

should be directed to Padma Baskar Ph.D., whose telephone number is ((571) 272-0853. A

message may be left on the Examiner's voice mail system. The Examiner can normally be

reached on Monday to Friday from 6.30 a.m. to 4.00 p.m. except First Friday of each bi-week.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's

supervisor, Lynette Smith can be reached on (571) 272-0864. Any inquiry of a general nature

or relating to the status of this application or proceeding should be directed to the receptionist

whose telephone number is (571) 272-1600.
